

# The unlimited Benjamin.

Michael Wekerle is a Champion of Childhood Disability. His generous donation to the Infinity Centre for Access Innovations at Holland Bloorview Kids Rehabilitation Hospital is helping researchers develop technology that improves the lives of kids with disabilities. Benjamin, who can't hear or speak, uses a customized tablet computer to communicate. It's a breakthrough that his parents say is a 'game changer'. By investing in the creation of a world without limits, Michael Wekerle is helping change the game for tens of thousands of children with disabilities.
