Developing the Skills for Growing Up

Almost There 1 2 3

Young people and their families will go through many changes as they grow up. To get ready for the future, young people and their families need to learn about new resources. Young people may also need to develop new skills and take on new responsibilities.

Developing the Skills for Growing Up is a series of three checklists. It will help you look at how ready you are for the future, think about what you need to work on and plan how you will do it. Almost There is the final level of the series.

Who is this checklist for?
Almost There is for young people who have developed many of the skills needed for growing up and are preparing to become an adult. The items in this checklist focus on skills that will help you prepare for and transition to the adult world. Young people and their families may complete this checklist together. This may give you a chance to talk about how you could work together as a team to get ready for the future.

Note to parents
Families have told us that their child’s cognitive abilities affect how they plan for the future and how their child is involved with these plans. The skills your child will require for adult life will depend on their goals for the future. Even if your child is not able to be independent, they will eventually move to adult programs and services. There are some items in this checklist that apply to everyone regardless of ability.

However, there may be other items in this checklist that you feel do not apply to your child. Challenge yourself to think creatively about each item. Think about how you can encourage your child to make choices and actively participate in their life. Some items may be a reminder to you, as a parent, to take responsibility for these tasks. If you have any questions, talk to your child’s health care team to find out how you can use this checklist to meet your child’s needs.
How do I complete the checklist?

The first column is where you decide if this is **Something I want to work on**. Circle **y** for yes if you would like to work on the item, and circle **n** for no if you do not want to work on the item.

The second column is where you decide **What do I need to do?** If you have decided that YES this is an item you want to work on, this column is where you write down the step(s) you need to take to do this.

The third column is where you can keep track of what you have been working on and what you still need to do. **If you have Done what you need to do, put a checkmark (✓) in this column.**

When have I finished the checklist?

You decide when you are finished the checklist. You can use the **Done** column to help you decide. If you have a checkmark (✓) beside each item that you wanted to work on and there are no other items that you would like to work on, you are finished the checklist.

What do I do when I have finished this checklist?

The process of developing skills and planning for the future doesn't stop here. Continue to work on the skills that you feel are important to you and your family, and your future.

**My Own Stuff**

This section is where you can add in items that you would like to work on that are specific to you and your needs.
Notes to Myself

Who do I need to talk to? Write down the names of people that you think you should talk to (e.g. parents, health care professionals, teachers, friends, etc.).

Where do I need to go? Write down places that you need to visit or resources that you can use (e.g. local community centre, Internet websites, etc.).

If you have questions about this checklist, or related programs and services, please talk to your health care team or e-mail lifeskills@bloorviewmacmillan.on.ca
